

MODERN DESIGN

To help stay relevant in the modeling industry, a contemporary and modern design goes a long way to achieving this.

RESPONSIVE WEBSITE

A responsive website that looks stunning on all desktop computers, tablets and phones. Creating a responsive website ensures that people around the world can access your website on all mobile devices.

BASIC SEO

Online content is only great if it's able to be found. With basic SEO, which stands for search engine optimization, your website will be indexed by Google and other search engines.

CUSTOM DESIGN

No two models are the same. This is why you deserve a stunning custom design specifically for you.

RESEARCH & ANALYSIS

There are many models out there, but how do you stand out? This basic level Research and Competitive Analysis offers great insights to help you stand out from the local market.

DOWNLOADABLE SPECS

Most model sites only display a model's physical specs. Your site displays this information in addition to offering a convenient way to download the information, so that it can be printed or shared on facebook, twitter, snapchat or email.

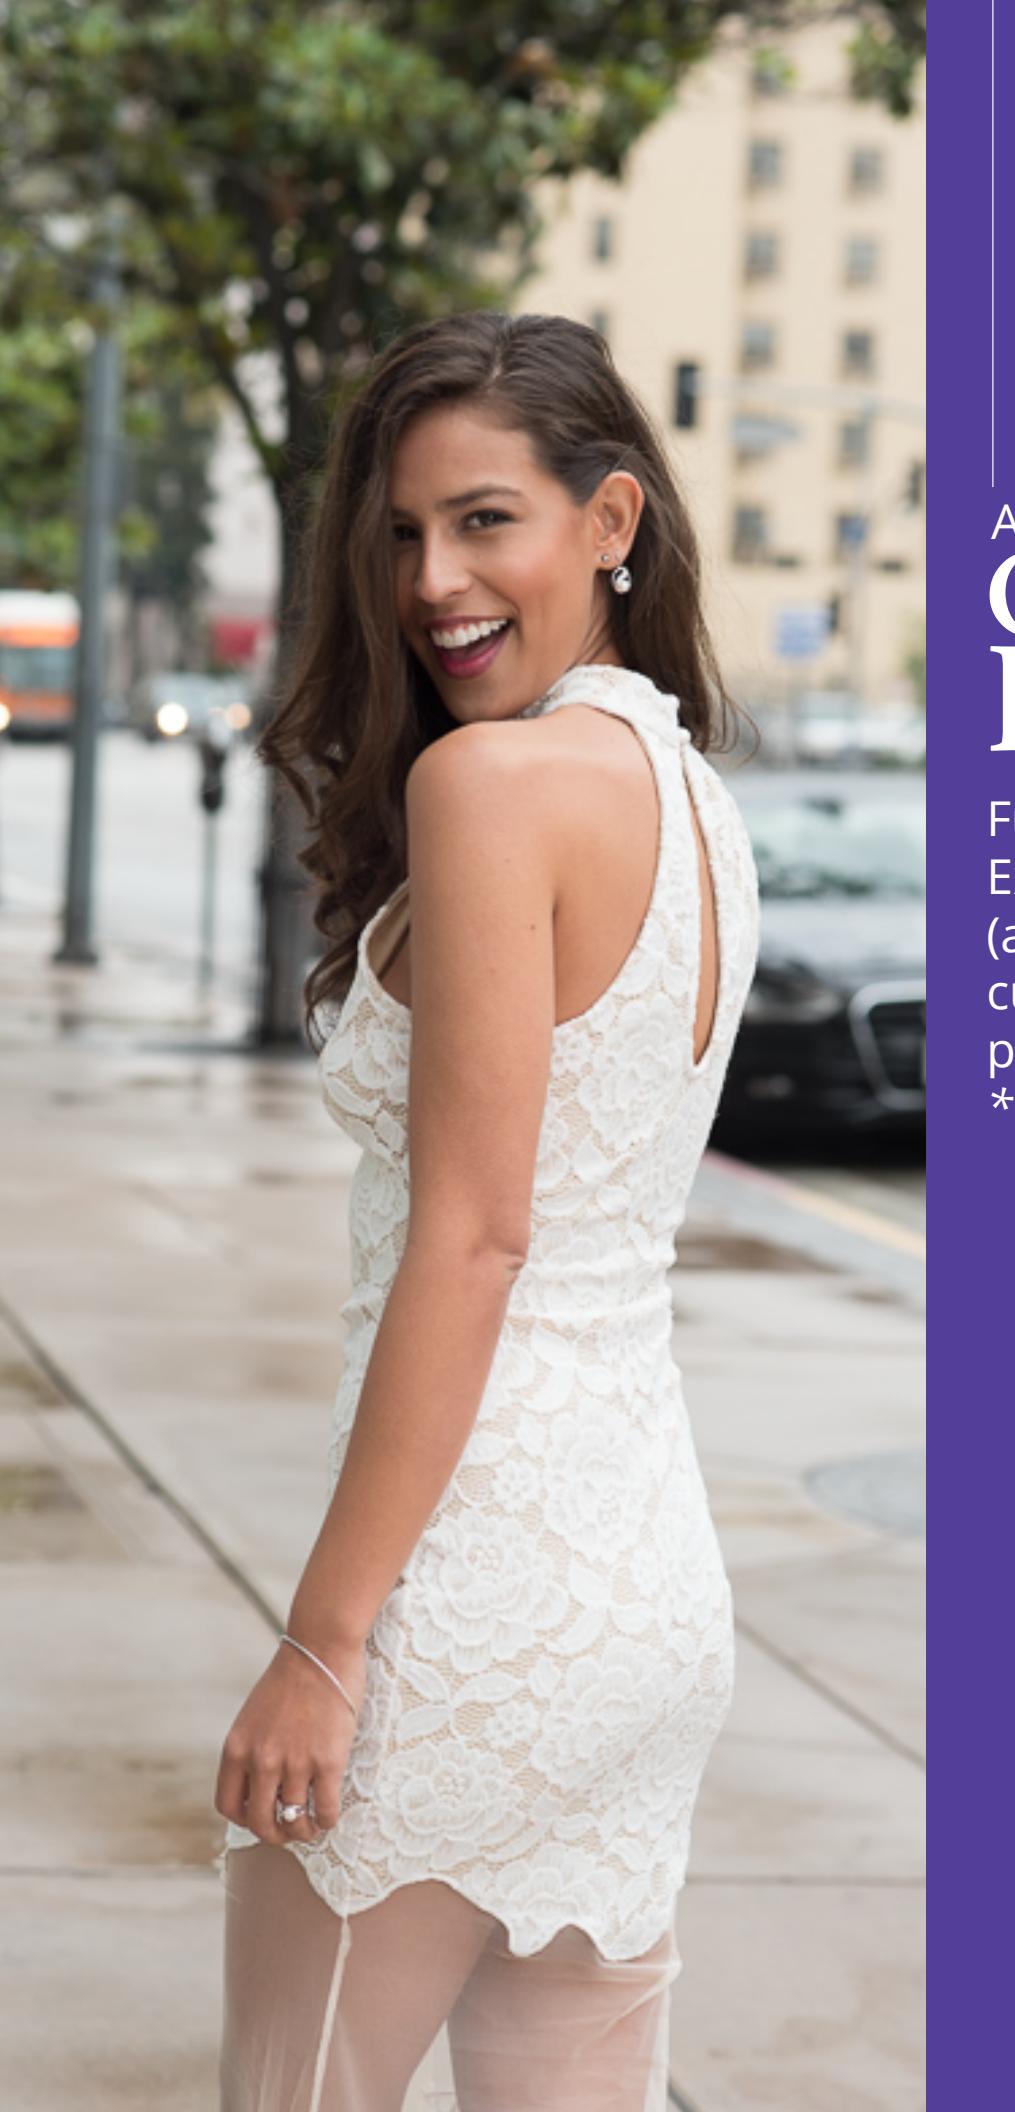

ENHANCED PORTFOLIO

This feature is normally reserved as a paid feature; however, it is included at no additional charge.

The enhanced portfolio includes a lightbox interactive feature, which allows images to be displayed in a larger view once clicked. In addition there are multiple interactive sliders across many website pages. This allows you to display more of your images in an engaging way for prospective clients and other people visiting your website.

CONTACT PAGE

With this simple and straight forward contact page, potential employers can contact you very easily.
